

ABOUT ME

Aspiring Software Developer Seeking a job opportunity as a software engineer in an enterprising environment. I am a driven individual with skills and expertise in the designing, planning, and maintenance of software programs. I wish to work with a diverse team that strives to contribute to the company's vision and goals.

EDUCATION

SSLC

GOVT SCHOOL ,AJJAMPURA.
2016

PUC

GOVT PU COLLEGE ,AJJAMPURA.
2018

DIPLOMA CS&E.

DACG GOVT POLYTECHNIC , CHIKMAGLURE.
2018-21

BE ,COMPUTER SCIENCE & ENG.

MALNAD COLLEGE OF ENGINEERING, HASSAN.
2021-24

SKILLS

- C Programming
- PYTHON
- SQL
- HTML
- CSS

WORK EXPERIENCE

- **TECHNOLOGICS GLOBAL PVT.LTD INTERNSHIP**
Duration: 1 Month (AUG -SEP 2023)
Location: BANGALORE

TECH STACK LEARNT:-

- PYTHON
- MACHINE LEARNING & AI ALGORITHMS
- NUMPY LIBRARY
- PANDAS LIBRARY
- OOPS IN PYTHON
- MATPLOTLIB LIBRARY

CERTIFICATIONS

- PYTHON 101 FOR DATA SCIENCE PROVIDED BY IBM
 - PYTHON ESSENTIAL 1COURSE BY CISCO NETWORK ACADEMY
 - INTRODUCTION TO DATA SCIENCE BY CISCO
 - NPTEL IN SOFT SKILL DEVELOPMENT
 - NPTEL IN EMOTIONAL INTELLIGENCE
-

PROJECTS

1. Social Media Application With Data Analytics

Objective :-

- To develop a comprehensive social media platform integrated with advanced data analytics capabilities aimed at providing users with personalized experiences.
- improving user engagement, understanding user behavior, and enhancing overall platform performance and effectiveness through data-driven insights.

2. E-Pass Management System

Objective :-

- To leverage my expertise in software development and project management to design, develop, and implement an efficient e-pass management system.
- By employing cutting-edge technologies and best practices, my objective is to streamline the process of issuing, tracking, and managing electronic passes, ensuring seamless access control and compliance while enhancing user experience and operational efficiency.

3. Spotify Analysis using AI & ML

Objective :-

- Data Scientist with expertise in AI and Machine Learning, seeking to contribute to Spotify's mission of connecting listeners and artists through data-driven insights.
- Eager to apply advanced analytical techniques to enhance music recommendations, understand user behavior, and optimize content delivery. Committed to leveraging big data and machine learning models to innovate user experiences, drive engagement, and support strategic initiatives.

4. IOT Based Smart Poultry Farming

Objective :-

- Passionate Agricultural Engineer specializing in IoT, aiming to transform poultry farming through smart technologies. Dedicated to implementing real-time monitoring and automated systems to enhance farm efficiency, animal welfare, and productivity.
- Skilled in leveraging data-driven insights to optimize environmental conditions and resource management. Committed to promoting sustainable farming practices and ensuring high-quality poultry production.
- Seeking to apply expertise in IoT solutions to drive innovation and operational excellence in the poultry farming industry.
